PORTAMIX™

The ultimate transport cart just got better. It's also an ultimate mini mixer.

If you want to mix it, move it, and pour it – meet Pelican! Pelican has a well-balanced design that allows one person to mix, transport, and pour with ease and precision.

The hand mixer can be mounted on the Pelican by a motor mount accessory or it can be held by an operator. It is recommended to use the Portamix EM182R Hand Mixer with the TK200P Jetstream Paddle.
